

STAINS

KraftMaid
VANTAGE™

KITCHENS FOR THE **REAL** LIVING ROOM™

WANT TO SEE THE
WOOD'S GRAIN
AND NATURAL
CHARACTERISTICS?

THAT'S WHAT
STAINS ARE GOOD
FOR.

There are lots of color tints and effects, and in different ways
they all heighten what's interesting about each species of wood.

STAINS

- Staining brings out the defining character of any wood species.
- All stains are hand-sprayed and hand-rubbed, to deepen the finish and bring out the natural beauty.
- Stains add depth and dimension.

STAINS WITH GLAZE

- We hand-spray a flood coat of glaze over the entire base stain, then hand-wipe and hand-detail the door.
- Glaze remains in the detailed areas to add highlights.

BURNISHED FINISHES

- Hand-Burnishing softens the corners and raised edges of your doors.
- This provides the feeling of worn, well-loved furniture.

DISTRESSED FINISHES

- A distressed finish mimics the imperfections of reclaimed wood.
- Wormholes, softened corners, rasped edges, and other deliberate methods loosen the sense of uniformity.
- A suede topcoat is standard on distressed finishes.

SUEDE TOPCOATS

- This softens the overall color tone with a matte finish.
- Suede topcoats feel more lived in, subtle and sophisticated.
- Like our standard topcoat, a suede topcoat resists scuffs, stains, moisture, UV fade and cleaning chemicals.
